Burpee's Sweet Peas

Early or Winter Flowering Spencers

The Burpee Early Flowering Sweet Peas are recognized as leaders in their various colors and they are grown extensively by all florists who demand the very best.

The careful hybridization work carried on at Burpee's Fordhook Farms in Pennsylvania, the growing of the seed crops on Burpee's Floradale Farms in California, and our extensive indoor and outdoor trials give us a unique opportunity to supply the florists with the very best that can be had in Sweet Peas. Everything possible is done to insure the quality of Burpee's Sweet Peas.

The Burpee novelties for this year have proven to be a great step forward in the improvement of the Winter Flowering Sweet Peas.

We offer the seeds listed subject to prior sale at the prices quoted, postpaid to your door. Our terms are cash with order unless you are personally known to us or in a business where we can learn your financial standing from the commercial agencies.

Small shipments may be sent by parcel post, C.O.D. You may remit at our risk by Post Office Money Order, Express Order, Check, or Draft.

Please sign your name and give your complete address on every order and letter.

Your orders and inquiries will have our prompt and careful attention.

3336 Burpee's Orange

A Glistening Orange Sweet Pea

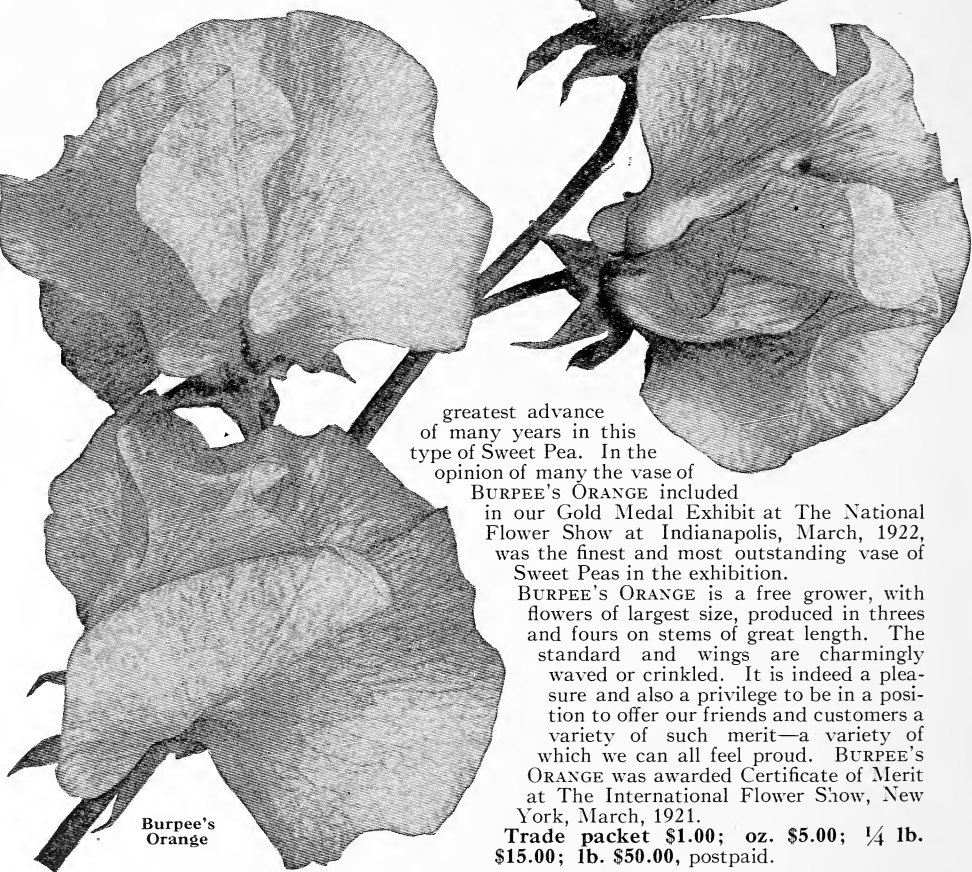

For many years we had this color in view in our hybridizing work; for long it eluded us but at last we were successful; BURPEE'S ORANGE even exceeding in beauty our most sanguine ambition.

BURPEE'S ORANGE is in every way distinct from other so-called orange varieties.

There is no trace of pink or orange-pink in either standard or wings. It is a true glowing orange self, practically the shade of a bright ripe orange.

The rich glistening color compels attention in any light, but at night, under artificial light, it is indeed outstanding. BURPEE'S ORANGE has been proclaimed by experts and the press alike as being the

greatest advance of many years in this type of Sweet Pea. In the opinion of many the vase of

BURPEE'S ORANGE included in our Gold Medal Exhibit at The National Flower Show at Indianapolis, March, 1922, was the finest and most outstanding vase of Sweet Peas in the exhibition.

BURPEE'S ORANGE is a free grower, with flowers of largest size, produced in threes and fours on stems of great length. The standard and wings are charmingly waved or crinkled. It is indeed a pleasure and also a privilege to be in a position to offer our friends and customers a variety of such merit—a variety of which we can all feel proud. BURPEE'S ORANGE was awarded Certificate of Merit at The International Flower Show, New York, March, 1921.

Trade packet \$1.00; oz. \$5.00; ¼ lb. \$15.00; 1b. \$50.00, postpaid.

The House of Burpee is recognized the world over as American Headquarters for Sweet Peas. Burpee was the pioneer Sweet Pea grower in America and has held a leading position through all the years when first the "Grandifloras," later the "Spencers," and finally the "Early or Winter Flowering Spencers" presented the world with their multitude of new colors. We never had finer novelties than those we are now offering for the first time. They are outstanding in every way, perfectly fixed, and true to type and color, besides being strong growers, free-flowering, and having blooms of immense size. We feel confident that they will give unbounded satisfaction to all who grow them.

Burpee's New Sweet Pea

3343 Cheerful

This fine novelty is an entirely new shade among the Early or Winter Flowering Sweet Peas. It is most appropriately named, the color being a soft, cheerful shade of Begonia-rose. The color is pure throughout with no other tints. Few varieties make such an imposing bunch as this great gem. The flowers combine immense size with good form. The standard is broad and well waved. The wings are also much frilled, and in size of the right proportion to the magnificent spreading standard. The whole flower is all that could be desired.

CHEERFUL is good under all conditions and lightens up to a most attractive brightness under artificial light. The substance of the flowers is thick and heavy, adding greatly to the keeping value after being cut. They are well placed in fours on long stout stems.

CHEERFUL is a good grower and bears a large crop of giant flowers on strong and healthy vines. The foliage is a rich deep green. Not only are the individual flower spikes most artistic, but they make up into a delightful bunch.

Almost all visitors to the International Flower Show, 1922, showed considerable interest in the vase of CHEERFUL.

CHEERFUL was awarded a Certificate of Merit at the great International Flower Show, New York, 1921.

Trade packet \$1.00; oz. \$5.00; ¼ lb. \$15.00; 1b. \$50.00, postpaid.

3394 Sunburst Improved

A tall-growing Sunburst has long been wanted and it is now supplied in our new SUNBURST IMPROVED. The color is a pleasing and attractive shade of rich salmon-pink, intensified toward the outer portion of the standard and wings, which are overlaid with a suffusion of amber and salmon.

The flowers are borne on long stout stems and the habit of the plant is vigorous, beginning to bloom early and continuing for a long time. SUNBURST IMPROVED is a particularly fine and pleasing variety and of a color that is always appreciated and in demand. It is equally valuable for fall, mid-winter, and spring cutting, and is a perfect combination to Enchantress, being practically as early and as easily grown. We have now discarded the old Sunburst, as our SUNBURST IMPROVED is ever so much better. In color it is almost identical, but perhaps a shade or two brighter. It stands to reason that with a stronger vine-growth we also find larger flowers of heavier substance and better shape. Oz. \$1.00; ¼ lb. \$3.00; 1b. \$10.00, postpaid.

3341 Mrs. Warren G. Harding

"The Harding Blue"

This distinct early or winter flowering variety is a great and decided advance; it is really a pronounced acquisition to its color class.

MRS. WARREN G. HARDING is a deep shade of silvery blue—the color that is already so well known as "*The Harding Blue*." The color is pure throughout, with no suspicion of mauve or rose. The flowers are immense in size, with a broad and much frilled standard. The wings are also well waved, and a large proportion of the flowers are duplex or double, which lends weight, size, and beauty to the bunch.

It is a vigorous grower, with strong vines and healthy, deep green foliage. One of the outstanding features of MRS. WARREN G. HARDING is its free-blooming habit. The individual sprays are light and graceful, with usually four flowers carried on a

long and strong stem. They are easily arranged into airy and light bunches. We exhibited this novelty under the name of Silver Blue. By special permission from "*The First Lady of the Land*," however, we have now named this most outstanding novelty MRS. WARREN G. HARDING. The demand for this wonderful variety when first offered last year was so great that we were sold out quite early in the season, but we believe that our supply this year will be sufficient to give all our friends a chance to include it in their collection. Can be flowered at any season, and will continue to bloom for many months, while the vines never get out of bounds. **Trade packet 50 cts.; oz. \$2.50; ¼ lb. \$7.50; 1 lb. \$25.00, postpaid.**

3369 Mrs. Kerr (Burpee's) The Best Early Flowering Salmon

MRS. KERR created a sensation when exhibited at the great International Flower Show in New York, March, 1920, 1921, and again in 1922. This magnificent novelty has been hailed by experts as being the greatest advance in this type.

MRS. KERR has all the desirable qualities which go to make up a perfect flower. In addition to its unique and dainty color, the plant is of most vigorous habit and extremely free-flowering. The flowers are of immense size and exquisite shape. They are a pleasing shade of rich salmon, overlaid with a soft tinge of orange. Under glass the color is intensified and indescribably beautiful; in artificial light it is simply magnificent.

The great flowers are of substantial texture, thus adding to their unusual lasting quality after being cut. MRS. KERR produces flowers which are bold in the extreme; the standard is broad, deep, and charmingly waved. The wings are well placed, as are also the three or, more often, four flowers on their long, stiff stems.

It is impossible to fully describe the great beauty of this lovely flower, which is already the most popular in the Early Flowering type. All florists who want to be up-to-date must have MRS. KERR. The illustration shown on this page has been reduced from a full-size spray taken on FORDHOOK FARMS. It will give but a faint idea of the immense size of the spikes, boldness of the flowers, and richness of color and texture. MRS. KERR was awarded Certificate of Merit at The International Flower Show, New York, March, 1920. **Trade packet 50 cts.; oz. \$2.00; ¼ lb. \$6.00; lb. \$18.00, postpaid.**

MRS. KERR is the most-talked-of variety of Sweet Peas among florists

All the leading growers agree with us that MRS. KERR is in great demand

3391 White Star (Burpee's)

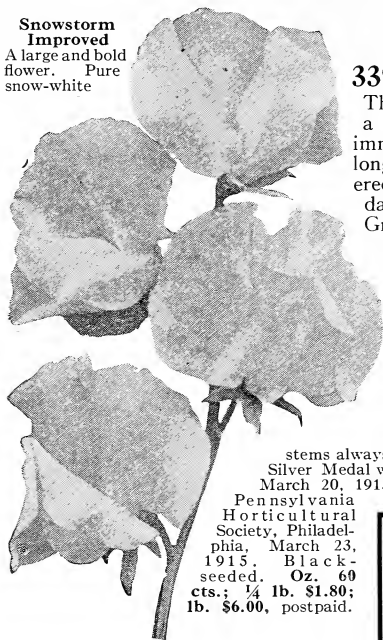

A first-class, black-seeded white Sweet Pea, lacking any suspicion of pink or other coloring, has long been wanted, and we now have it in WHITE STAR. The flowers, of enormous size, are freely produced in fours, and all beautifully waved and well placed on the stem. The flowers are of great substance and purest opaque whiteness, retaining their purity of color until the end. The plants are robust and branch freely and early, therefore should be allowed plenty of room in the row to avoid overcrowding.

We consider WHITE STAR to be the last word in black-seeded white varieties; it will be a boon to all florists who have had difficulty in germinating the white-seeded sorts, while the flowers, with their pure, clear color will be quite as valuable. The variety has proven to be one of the very finest for growing as the days lengthen, doing then considerably better than during mid-winter. Awarded Certificate of Merit at The International Flower Show, New York, March 14, 1921. **Trade packet 50 cts.; oz. \$2.00; ¼ lb. \$6.00; lb. \$18.00, postpaid.**

Mrs. Kerr
The Best Early
Flowering Salmon

WE give below a complete list of the Burpee varieties of Early or Winter Flowering Spencer Sweet Peas, arranged according to colors. With the exception of "Yarrowa," which is an Australian variety, Rose Queen, Columbia, and Zvolanek's Rose, these have all originated with us. In breeding the Burpee varieties of Early Flowering Spencer Sweet Peas, we have selected not only for desirable colors, but also for vigor and free-blooming qualities. But the call for varieties suitable for growing in raised benches or houses where the head room is not more than 5 feet, has prompted us to introduce the varieties Sweet Briar, Primrose Beauty, and Rising Sun, which bloom profusely but do not grow over 5 feet tall.

WHITE

3392 Snowstorm Improved *See illustration.*

The flowers are of immense size, exquisite form, with a heavy and bold standard. A vigorous grower, the immense flowers are invariably borne in fours on very long stems. One of best four varieties. Can be flowered for any season though it is seen at its best when the days lengthen. Awarded Certificate of Merit at The Great International Show, New York, March 20, 1918.

Oz. 80 cts.; ¼ lb. \$2.40; 1b. \$8.00, postpaid.

3391 Burpee's White Star

See illustration. This wonderful black-seeded white is fully described on page 5. Exquisite flowers of enormous size which are at their best as the days lengthen. Trade packet 50 cts.; oz. \$2.00; ¼ lb. \$6.00; 1b. \$18.00, postpaid.

3390 Early Sankey

Excellent for earliest forcing, color good and pure. This truly magnificent white was awarded a Special Silver Medal when exhibited at The Great International Show in New York, March 20, 1915, also Certificate of Merit at The Spring Show of The

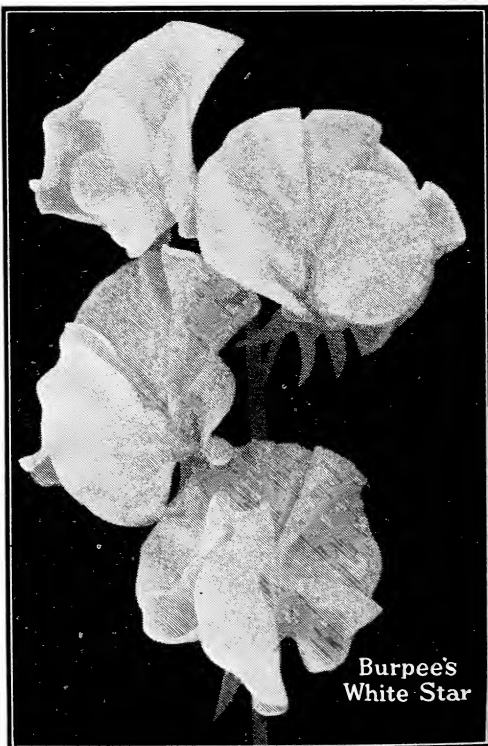

CREAM and PRIMROSE

3375a Lemon Beauty As the name indicates, this variety is a soft primrose or pale lemon-colored variety, the standard and wings being softly tinted amber, and sometimes lightly veined with rose-pink. A strong grower, stems of great length, the immense flowers being usually borne 3 or 4 on a stem. A fancy color, doing well in early spring, which some florists have found remunerative grown in a small way. Oz. \$1.00; ¼ lb. \$3.00; 1b. \$10.00, postpaid.

3342 Canary Bird This is a splendid cream or primrose-colored self. The flowers are of great size, beautifully waved, and usually borne 3 or 4 on a stem. Can be flowered at any season. Worth growing in a small way. Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

3384 Primrose Beauty

A pleasing shade of deep primrose flushed with rose. The flowers are of great size and beautifully waved in true Spencer form. Grown under glass, this variety attains a height of only 5 to 6 feet and is, therefore, valuable for culture on raised benches or on the side benches of low-roofed houses. One of the earliest bloomers. Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

**Burpee's

BLUSH

3382 Peach Blossom See illustration. An altogether new and distinct color in Sweet Peas, and which may be described as a pale amaranth-pink which deepens somewhat around the edges of the standard and wings. A true self, standard and wings being of the same shade. The color becomes deeper as the days lengthen. A vigorous grower and free-flowering, with stems of great length. Excellent for all seasons, though the color is intensified when the days lengthen. Oz. \$1.00; ¼ lb. \$3.00; 1b. \$10.00, postpaid.

PICOTEE EDGED

Daintiness
An exquisite
picotee-edged
variety

3346 Daintiness

This has always been a favorite since it was first exhibited in 1915, when it was certificated. A strong grower, with flowers of largest size and usually produced in fours. Color pure white edged rose. Similar to summer-flowering Dainty. Good at any season. Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

3352 Exquisite

The ground color is a soft shade of primrose, the edge of the standard and wings being beautifully "picoteed" with deep rose-pink. A strong, robust grower. The large flowers are freely borne on long, stiff stems. Exquisite has become very popular in some markets. Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

Peach Blossom
A beautiful
shade of pink

CREAM-PINK

3348 Daybreak

The flowers are much frilled or waved, of largest size. A pleasing shade of rich rose-pink on cream ground, the color becoming deeper toward the edges of standard and wings. The entire flower is lightly suffused with salmon. Excellent for early cutting, often retaining its buds when all others are dropping. A fine mid-winter

variety. Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

3386 Rising Sun The color is a fine rose-pink on cream. A bright and most attractive flower. The light lemon-colored keel being placed in the center of this lovely combination of rich pink and rose creates a most charming color harmony. A fresh and distinctly beautiful flower. As the plants attain a height of only 4 to 5 feet, the variety is useful for benches or pots only. Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

3394 Sunburst Improved This remarkable variety is offered

for the first time this year. It is a marked improvement on the old Sunburst, growing into tall and sturdy plants which bloom freely all season. Many of our friends had hoped that some day we would have this strong-growing type of Sunburst as they were much impressed with the wonderful salmon-pink color of the old Sunburst, but objected to its dwarf growth. SUNBURST IMPROVED is identical in color but ranks as one of the strongest growing and most free-blooming of all varieties. SUNBURST IMPROVED is fully described among the novelties on page 3.

Oz. \$1.00; ¼ lb. \$3.00; 1b. \$10.00, postpaid.

LIGHT PINK

3376 Loveliness

For dainty and delicate color effect, especially when bunched, LOVELINESS stands head and shoulders above any variety we have seen. The color is white, the entire flower being suffused soft pink until it reaches the edges, which are distinctly picoteed with rose-pink. A flower of immense size and great substance, beautifully waved and usually produced 3 or 4 on very long, stout stems. It blooms very early, flowering freely during the short days. Awarded a Certificate of Merit by The Pennsylvania Horticultural Society at their Spring Show, Philadelphia, March 23, 1915. Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

3395 Sweet Briar

Color a lovely shade of pink throughout, but with a soft salmon or amber suffusion, this being more accentuated in the younger flowers and buds. One of the earliest, but recommended only for low houses or side benches as the growth is dwarf, usually not more than 6 feet. Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

DEEP PINK

3351 Enchantress

The flowers are immense in size, often measuring 2½ inches in diameter; they are exquisitely waved or frilled, well placed on stiff stems, and usually produced in threes or fours. The color is most attractive and pleasing. It is a bright rose-pink, becoming deeper toward the edges of standard and wings, gradually softening in tone toward the center of the flower. A free and continuous bloomer.

One of the best deep pinks in cultivation.

A great favorite with florists due to its adaptability. Excellent for all seasons, flowering very freely during mid-winter. Very early. Awarded Certificate of Merit by The American Sweet Pea Society, San Francisco, June 9, 1916. Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

3383 Pink Beauty

See illustration. The color is soft rose-pink on white ground, richer toward the edges, gradually softening in color as it reaches the center of standard and wings. Suitable for all seasons; of medium height. Awarded Certificate of Merit at The International Show, New York, March 20, 1915, the Spring Show of The Pennsylvania Horticultural Society, March 23, 1915, and The American Sweet Pea Society, San Francisco, June 9, 1916, when exhibited as Fordhook Countess. Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

3389 Rose Queen

This is an early and profuse bloomer of a pleasing shade—a fine rose—that sells particularly well. The flowers are much waved, being 2¼ to 2½ inches in diameter. They are borne on long, strong stems and are produced with great freedom. Very tall; fine for early cutting. Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.

ROSE and CARMINE

3387 Rosebud The flowers are of immense size and produced freely in threes and fours. Color bright shining rose with a suspicion of bronzy suffusion throughout the standard. Good for any season. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3362 Fordhook Rose, Improved

A charming shade of rosy carmine. The flowers are of largest size and usually borne in threes and fours on long, stiff stems. The color is at its best as the days lengthen. Awarded Certificate of Merit at The International Show, New York, March 20, 1915, and at The Spring Show of The Pennsylvania Horticultural Society, Philadelphia, March 23, 1915. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3393 Splendor A magnificent new deep rose self. The rich rose-crimson color is accentuated by the distinct white blotch at the base of standard and wings. The flowers are of great size, usually borne in fours on very long stems. Similar in color to the summer-flowering Rosabelle, doing very well in spring. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3337 Zvolanek's

Rose Many growers consider this variety one of the best in the rose class. The flowers are large and bold. They are carried in fours on long and strong stems. A free-blooming and easily grown variety. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00, postpaid.

CRIMSON and SCARLET

3374 Early King See illustration. In color similar to King Edward Spencer, having all the characteristics of that fine variety. A glowing rich bright crimson. The flowers are of great size and perfect form, averaging fully 2 inches in diameter, and are produced freely in threes and fours on strong stems of great length. Recommended for all seasons. Awarded Certificate of Merit at The International Show, New York, March 20, 1916, and The Pennsylvania Horticultural Society, Philadelphia, March 23, 1915, when exhibited as Fordhook Crimson; also at The Annual Exhibition of The American Sweet Pea Society, San Francisco, June 9, 1916. Oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; lb. \$6.00, postpaid.

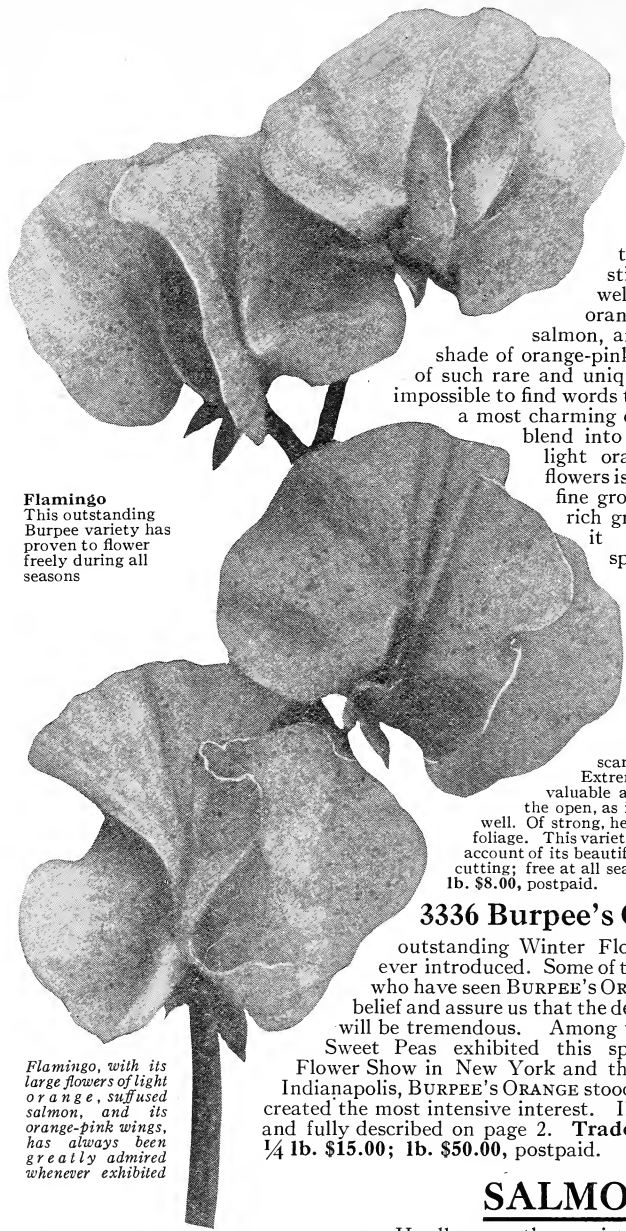

3388 Rosy Morn Flowers grown under ordinary field culture have measured fully 2 inches in diameter. The color is a pleasing shade of rose with crimson-scarlet standard. The flowers are borne in threes or fours on stiff, long stems. A vigorous and strong grower that has proven to sell well almost everywhere. Excellent for all seasons. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

ORANGE-SCARLET

3366 Glitters See illustration. No variety we know of approaches GLITTERS in richness, brightness, and live-fire effect. It is unique and outstanding, far ahead of all other orange-scarlet Sweet Peas. It glitters and scintillates, with a fire-like sheen radiating over the flowers. Magnificent by day, its color under artificial light is startling. We can only attempt to describe its flaming hue—to be fully appreciated it must be seen. The standard is a bright orange scarlet, and the wings are deep orange. The enormous flowers are of substantial texture, and hold up well after cutting. The flowers are artistically placed, usually in fours, on a long and strong stem. The sprays are majestic, but graceful withal, and make up into a most striking bunch. GLITTERS is a strong and vigorous grower, with healthy, deep green foliage, blooming profusely and continuously. Excellent in mid-winter, but the color improves as the days lengthen. Oz. \$1.00; $\frac{1}{4}$ lb. \$3.00; lb. \$10.00, postpaid.

Flamingo, with its large flowers of light orange, suffused salmon, and its orange-pink wings, has always been greatly admired whenever exhibited

ORANGE

3360 Flamingo

See illustration. This is a distinct and charming variety, the color in particular being attractive and pleasing. The flowers are truly enormous in size, usually produced in threes or fours on very long, stiff stems. The broad and well-waved standard is light orange, with a suffusion of bright salmon, and the wings are a delicate shade of orange-pink. A bunch of FLAMINGO is of such rare and unique beauty that it is almost impossible to find words to describe it properly. It is a most charming combination of colors which blend into a general effect of bright, light orange. The texture of the flowers is substantial. FLAMINGO is a fine grower, with strong stems and rich green foliage, and, above all, it produces its magnificent sprays in great profusion.

FLAMINGO is a splendid variety and should be included in every collection. **Oz. \$1.00; 1/4 lb. \$3.00; 1b. \$10.00**, postpaid.

Orange Beauty

3381 Similar in color to Helen Lewis, glowing orange-scarlet with softer colored wings. Extremely free and early-blooming, valuable alike for culture under glass or in the open, as it withstands the sun and weather well. Of strong, healthy growth and rich, dark green foliage. This variety never fails to attract attention on account of its beautiful color. Recommended for early cutting; free at all seasons. **Oz. 80 cts.; 1/4 lb. \$2.40; 1b. \$8.00**, postpaid.

3336 Burpee's Orange

We consider this novelty the most outstanding Winter Flowering Sweet Pea we have ever introduced. Some of the largest Sweet Pea growers who have seen BURPEE'S ORANGE on exhibition share our belief and assure us that the demand for BURPEE'S ORANGE will be tremendous. Among the large number of Burpee's Sweet Peas exhibited this spring at the International Flower Show in New York and the National Flower Show in Indianapolis, BURPEE'S ORANGE stood out most magnificently and created the most intensive interest. Illustrated on the front cover and fully described on page 2. **Trade packet, \$1.00; oz. \$5.00; 1/4 lb. \$15.00; 1b. \$50.00**, postpaid.

SALMON

3369 Mrs. Kerr (Burpee's) Hardly any other variety introduced previous to this year has received as many favorable comments as MRS. KERR. Knowing its beauty and artistic value, we were not surprised to see that MRS. KERR was chosen by a number of florists as the subject for a competition on dining table decorations which was a feature of the National Flower Show held in New York last March. Needless to mention, it was a table with MRS. KERR which was given the highest award. Illustrated on the back cover and fully described on page 5. **Trade packet 50 cts.; oz. \$2.00; 1/4 lb. \$6.00; 1b. \$18.00**, postpaid.

3334 Apricot A distinctly new color. Rich, glowing, deep salmon self, suffused with orange. Grown under glass the color is particularly rich, and under artificial light it is truly magnificent. Although the flowers are not of largest size, this is more than compensated for in the unique coloring. Fine for all seasons. **Oz. 80 cts.; 1/4 lb. \$2.40; 1b. \$8.00**, postpaid.

CERISE

3359 Fire King This is an early or winter flowering fire-red or cerise-scarlet, or it may be described as a deep orange-scarlet. It is outstanding in every way, a flower which always attracts. In bright sunlight it has a glory all its own, and under glass the color is greatly intensified. Recommended for early spring. No commercial grower can afford to overlook FIRE KING, and it is equally desirable to amateur growers in our Southern States.

Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; 1b. \$7.00, postpaid.

3370 Gorgeous A charming soft salmon-rose or pale salmon-cerise self. Similar in color to the popular Edith Taylor. A unique and pleasing color, and always admired. The flowers are of great size, and generally borne in threes and fours on very stout, long stems. When known, it will be one of the most popular varieties in this section. Fine for all seasons.

Oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; 1b. \$6.00, postpaid.

3373 Illumination This striking novelty may be briefly described as a winter flowering Illuminator, but grown under glass the color is more pronounced, and under artificial light it is particularly striking. The flowers are of great size, color glowing salmon-cerise, with a suspicion of orange suffusion; vigorous and strong in habit. The flowers are usually borne in threes and fours, artistically arranged on a long and strong stem. This gem will be in great demand by both commercial and private growers. They make exquisite bunches. Fine for all seasons. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; 1b. \$8.00, postpaid.

3344 Cherry Ripe A particularly bright and taking color and quite new in this section. It might be described as a glowing cherry or salmon-cerise self. Good for early cutting. Awarded Certificate of Merit at The International Spring Show, New York, March 20, 1918. Oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; 1b. \$6.00, postpaid.

Lavender King

Lavender King is a great favorite with many large florists, who find it a great seller

LAVENDER AND LIGHT BLUE

3375 Lavender King See illustration. This glorious variety is a rich and true deep lavender throughout. Similar in color to the summer-flowering variety, Burpee's Orchid. The flowers are of large size, beautifully waved form, and borne in threes and fours on stems of great length. Excellent for early cutting. Oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; 1b. \$6.00, postpaid.

3385 Princess A vigorous grower and most floriferous, the large flowers being freely produced in fours on long, stout stems. Color, a lovely shade of soft lavender suffused mauve—a color in great demand. The flowers are most attractively fluted or waved. PRINCESS retains its color even after the weather becomes very warm. Recommended for all seasons. Oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10; 1b. \$7.00, postpaid.

3399 Zephyr This is a delightful shade of pale blue or a silvery blue self. An extremely dainty and charming variety. A color much in demand in some markets. The habit is free, and it is a continuous bloomer. The flowers, which are of large size, are borne freely four on a stem of great length. Fine for mid-winter. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; 1b. \$5.00, postpaid.

Burpee's Sweet Peas

Prize-Winners at The International Flower Show, New York City, March, 1922, and at The National Flower Show, Indianapolis, Indiana, March, 1922.

Our display of Burpee's Early or Winter Flowering Sweet Peas exhibited at The International Flower Show, which was held at the Grand Central Palace, New York, March, 1922, was awarded First Prize for the best display of Sweet Peas—100 square feet. Our display at The National Flower Show in Indianapolis was awarded the Gold Medal and also the First Prize. At both Shows we were awarded Certificates of Merit for Six New Outstanding Early Flowering Sweet Peas, which will be ready for introduction within the next two years.

BLUE

3338 Blue-Bird

See illustration. This is a charming shade of blue. Somewhat similar to Wedgwood, but more of a true self, especially as the flower ages. It has become a leader in its color and is now grown very largely by florists in all parts of the country. An easy and good doer; the fine large flowers are invariably borne in fours. Recommended for all seasons. One of the best four varieties. **Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.**

3396 True Blue

A most lovely color. As the name implies, this lovely novelty is a charming shade of true blue or light violet-blue, a color much wanted in this type. Flowers of great size, much waved or crimped, strong and vigorous in growth, and most floriferous. Does not grow out of bounds. Excellent for all seasons. Awarded Certificate of Merit at The Great International Show, New York, March 20, 1918. **Oz. 80 cts.; ¼ lb. \$2.40; 1b. \$8.00, postpaid.**

3340 Blue Jacket

This variety will certainly become popular with all Sweet Pea lovers who prefer the dark shades. It is a rich, dark navy-blue self. Extremely free-flowering and usually produced in fours. A few shades deeper than our Blue-Bird, we anticipate it will become quite as popular as that well-known variety. Excellent for all seasons. **Oz. 80 cts.; ¼ lb. \$2.40; 1b. \$8.00, postpaid.**

MAUVE AND PURPLE

3367 Glorious

This magnificent novelty may be briefly described as an early-flowering Royal Purple, the color being identical to the popular summer-flowering variety of that name. A charming shade of warm, rosy purple. The flowers are of great size, beautifully waved and fluted, and invariably produced in threes and fours on very long and strong stems. Good at any season. **Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.**

3380 Mauve Beauty

See illustration. Color a pleasing shade of rosy mauve. The flowers are of immense size, often measuring 2½ in. in diameter, yet exquisitely waved and of best Spencer form. A strong, vigorous grower and very free-flowering. Charming under artificial light. Fine color at any season. **Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.**

MAROON

3377 Maroon Prince

See illustration. This fine novelty will appeal to those having a preference for the darker and richer colors. The flowers are of great size, beautifully waved, and borne freely in threes and fours. Color a deep, rich, glowing reddish maroon. **MAROON PRINCE** is quite distinct and is a really unique color. A strong grower and most profuse bloomer. Color pure at any season. **Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.**

PASTEL PINK

3356 Fairy Queen

A most pleasing pastel or art shade, the color being blush-pink, with pale salmon suffusion, having darker veinings of rose. A most vigorous and free-flowering variety. The flowers are large, with broad, gracefully waved standards and wings. There are usually three or four blooms on the long and strong stems. Tall and strong. The color is best in spring, as the days begin to lengthen. **Oz. 60 cts.; ¼ lb. \$1.80; 1b. \$6.00, postpaid.**

Blue-Bird

This particular shade of blue is always very much admired

fully waved and fluted, and invariably produced in threes and fours on very long and strong stems. Good at any season.

Oz. 50 cts.; ¼ lb. \$1.50; 1b. \$5.00, postpaid.

Mauve Beauty

A flower of great size and splendid form

Maroon Prince

BICOLOR

3353 Fairy A flower of great size and exquisitely waved. Color rich cream, the standard suffused with pinkish apricot. The mass effect when bunched is charming, the color being so dainty and striking. A strong, vigorous grower and extremely free-flowering. Very strong. Best as the days lengthen. Oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; lb. \$6.00, postpaid.

3358 Favorite See illustration. A very free and strong growing variety. Color similar to the old Apple Blossom. Rosy pink standard and blush wings. The flowers are large, well waved and of fine form. Excellent for bunching. The color is good at all seasons. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3361 Fordhook Pink and White See illustration. This is similar to the old Blanche Ferry, one of the great favorites for greenhouse culture, having a bright rosy pink standard with creamy white wings, lightly suffused rose. A strong grower with four flowers to the stem. Recommended for both early and late cutting. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3398 Yarrowa The flowers average $2\frac{1}{2}$ in. in diameter; many are duplex or double. The color is a bright rose-pink with a clear creamy base. The long and strong stems usually carry four large blooms. Our stock of this popular Australian variety is absolutely true. Grown on our FLORADALE FARMS from seed procured direct from the introducer. Best as the days lengthen. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3347 Columbia A remarkably fine variety with immense and heavy flowers borne in fours on long and strong stems. The standard is a rich rose-pink and the wings a fine delicate creamy rose. As soon as better known this will be one of the leading varieties. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00, postpaid.

Fordhook Pink and White

STRIPED AND FLAKED

3335 Aurora The color is white, artistically flaked rich orange-scarlet. A sturdy grower, with large flowers all boldly waved and fluted. The color is always good. Best as the days lengthen. Oz. 80 cts.; $\frac{1}{4}$ lb. \$2.40; lb. \$8.00, postpaid.

3345 Columbine Somewhat similar to the well-known America Spencer. Color white, the entire flower being striped and flaked rich rose. The flowers are large and of fine form and will be welcomed by those who have a preference for striped and showy colored flowers. A medium grower. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

3372 Harlequin Similar in every way to Senator Spencer, but early-flowering. Light heliotrope ground, striped and flaked deep chocolate and claret. A vigorous grower, the immense flowers are freely borne on long stems, usually in threes and fours. It is the most conspicuous of all the striped and flaked varieties and worth growing in a small way. Oz. 60 cts.; $\frac{1}{4}$ lb. \$1.80; lb. \$6.00, postpaid.

3357 Fantasy Striped and marbled with rich rose-pink on a creamy white ground. Exceedingly bright and makes a telling bunch when cut. Extremely free and a continuous bloomer, the flowers usually borne in threes and fours on long stems. Oz. 50 cts.; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00, postpaid.

Favorite
Apple - blossom - pink standard and blush wings. A beautiful combination of delicate colors

MIXTURES

3400 Sunrise Mixture It is a carefully composed blend of the finest of the many named varieties of Burpee's Early-Flowering Spencers, together with a number of new seedlings from our California work-shop. As with all our blends, we have taken care to determine the right proportion of the different colors to produce the most harmonious and pleasing effect. The seed has all been grown on our own FLORADALE FARMS and is the best that it is possible to grow. Oz. 40 cts.; $\frac{1}{4}$ lb. \$1.20; lb. \$4.00, postpaid.

3401 Special Mixture of Light Shades In contrast to our Sunrise Mixture, this Special Mixture contains only light shades, such as white, cream, pink, salmon, lavender, etc. Many of our customers who grow Sweet Peas in a very limited way prefer to grow a mixture of these light shades because they find a ready sale for it. Oz. 45 cts.; $\frac{1}{4}$ lb. \$1.35; lb. \$4.50, postpaid.

Burpee's Summer-Flowering Sweet Peas

We recommend these for general outdoor growing throughout the United States, except in the extreme South, where Sweet Peas flower during the winter and where the Early-Flowering varieties give best results. The Summer-Flowering varieties are not suited for greenhouse culture during the winter, but should be planted outdoors early in the spring to supply the summer demand. We offer re-selected stocks grown at FLORADALE FARMS.

White

3475 GIANT WHITE The most perfect black-seeded white Sweet Pea in existence. Flowers of wonderful size and superb form. Four large flowers carried on a long stem. Oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; lb. \$20.00, postpaid.

2420 EXTRA FINE BEDDING PANSIES, MIXED These are valuable for making beds where the size of the individual flower does not count so much. They flower profusely. Pkt. 10 cts.; $\frac{1}{8}$ oz. 30 cts.; $\frac{1}{4}$ oz. 55 cts.; oz. \$2.00.

2500 Steele's Mastodon

Greenhouse Special Mixture (O. K. outside)

Immense and well-shaped flowers with thick and well-waved petals. Includes everything from pure white to deep mahogany. The very fine lavender, rose, cerise, and light blue shades deserve special mention. This mixture is particularly fine for the greenhouse or for frames, but will do just as well out in the open. $\frac{1}{16}$ oz. 60 cts.; $\frac{1}{8}$ oz. \$1.00; $\frac{1}{4}$ oz. \$1.75; $\frac{1}{2}$ oz. \$3.25; oz. \$6.00.

2513 Burpee's Blend of Giant Fancy Pansies

This blend cannot be surpassed. It contains the largest and most beautiful of all blotched Pansies that have been developed after many years of careful and close selection. The Burpee Blend contains only well-formed, expanded flowers of uniform large size with an unusual range of colors and markings. The texture of the blooms is heavy and thick, so that the blooms are well waved and crinkled on the edges. The large flowers are borne upon long and stiff stems which hold them well above the foliage and make them admirably suited for cutting. The seed of Burpee's Blend is necessarily expensive but it is well worth all it costs. Pkt. 35 cts.; $\frac{1}{8}$ oz. 90 cts.; $\frac{1}{4}$ oz. \$1.70; oz. \$6.50.

SNAPDRAGONS—Antirrhinum

Snapdragons are favorites with the American public, and this is not to be wondered at when we consider the long season during which they bloom, together with the exquisite beauty of their flowers. As a cut-flower, few annuals can equal Snapdragons in brilliancy of color and gracefulness of the spikes. They are easily grown outdoors or indoors and are sure to yield good returns. They usually command a good price during the winter and early spring months.

Half-Dwarf Varieties The half-dwarf varieties if grown outdoors attain a height of about 15 inches and form compact round bushes which are literally covered with magnificent spikes of closely set large flowers. If grown under glass the individual flower spikes grow considerably longer and are just of the right size for making an attractive bouquet. The flowers are large and have much substance.

1533 BRILLIANT ROSE Very effective bright rose flowers of the largest size and perfect form. They are closely set on the stem and stand out from the rich green foliage. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1534 SHELL-PINK This is one of the finest of all Antirrhinums, with large, well-formed flowers of a delicate shell-pink shade. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1535 DAINY QUEEN This is a shade which is always greatly admired on account of the rich yet delicate color of the flowers, which run in beautiful shades of salmon-buff. The variation of shades is simply beautiful. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1536 HAWLMARK SALMON A most admirable shade, best described as a bronzy salmon with a yellow lip. It comes perfectly true. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1537 DEFIANCE One of the brightest. The flowers are a glowing vermillion with an orange cast. They are large and well formed. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1539 DAPHNE Large and perfect flowers of a rich deep pink with a pure white tube. A great variety of recent introduction. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1541 VELVET GEM A deep blackish maroon with dark bronzy green stems and foliage. The darkest of all Snapdragons. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1543 GOLDEN QUEEN Large flowers of a fine lemon-yellow tipped with golden yellow on the lip. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1545 PRINCE CHAMOIS Attractive golden chamois shaded rose. The spikes are closely set with large flowers. Pkt. 10 cts.; $\frac{1}{4}$ oz. 40 cts.; oz. \$1.50.

1547 QUEEN OF THE NORTH Pure white flowers of large size. This is considered the finest white Snapdragon in existence. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1550 COTTAGE MAID Fine salmon-rose with a golden lip. A combination of rare beauty. Large and well-shaped blooms. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1551 MAUVE BEAUTY An attractive shade of soft mauve; a rare color. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1552 THE FAWN The flowers are a combination of salmon, buff, and chamois. It blooms freely and is of extra-large size. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1553 FIREBRAND A rich deep shade of true scarlet. Very large. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1554 SPARKLER The large flowers are cherry-rose marked with white. An outstanding and very beautiful variety. Pkt. 15 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1549 FANCY MIXED A complete mixture of all the above. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 70 cts.; $\frac{1}{4}$ lb. \$2.10.

Tall Varieties The tall varieties grow 3 to 4 feet high in the open and are used extensively for cut-flowers during the summer and fall. The flower stems are long and the blooms are large, setting fairly close to them on the stems.

1555 GIANT SCARLET A rich and strong shade of true scarlet. Pkt. 10 cts.; $\frac{1}{4}$ oz. 45 cts.; oz. \$1.50.

1556 GIANT YELLOW Magnificent clear and rich yellow. The flower stalks are robust and well set with flowers. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.20.

1563 GIANT ROSE-PINK (Venus) This is a lovely combination of fine rose-pink on white ground. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.20.

1564 GIANT SILVER-PINK A much admired shade of delicate pink. This variety sells particularly well. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.20.

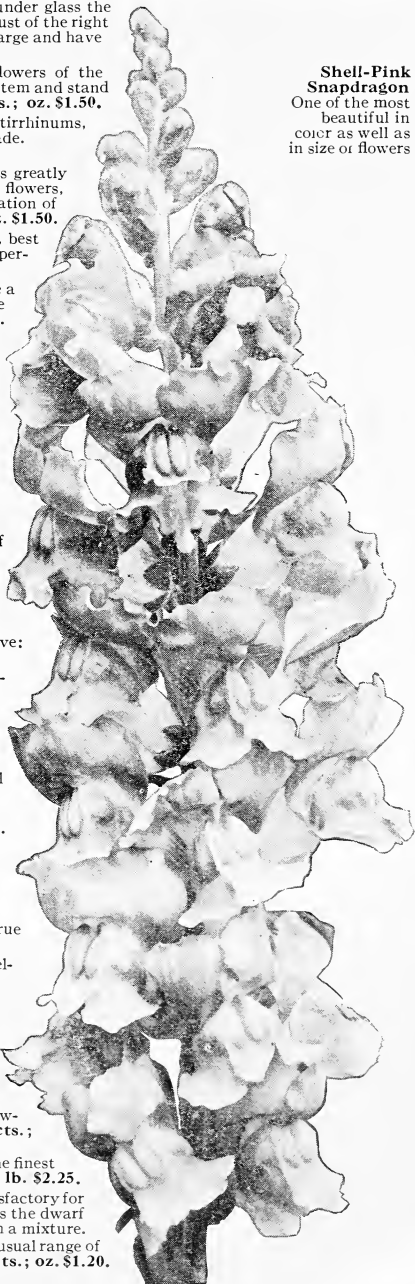

1565 GIANT WHITE (Queen Victoria) Pure white flowers of good size with a very faint yellow on the lip. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.20.

1558 GIANT MIXED This is a complete mixture of all the finest tall varieties. Pkt. 10 cts.; $\frac{1}{4}$ oz. 25 cts.; oz. 75 cts.; $\frac{1}{4}$ lb. \$2.25.

Dwarf Snapdragons Few plants are as satisfactory for borders or low beds as the dwarf varieties of Snapdragon. They look particularly snappy in a mixture.

1557 DWARF MIXED A complete blend, including an unusual range of colors in both rich and soft shades. Pkt. 10 cts.; $\frac{1}{4}$ oz. 35 cts.; oz. \$1.20.

Burpee's Flower Seeds for Florists

Burpee's flower seeds have a reputation for quality. We are growing a large number of varieties on our own farms in Pennsylvania, New Jersey, and California, and those which we do not grow on our own farms are produced under our direct supervision, and every possible safeguard is used to guarantee the quality of Burpee's flower seeds. We know from yearly comparative tests made in the greenhouse as well as in our open trial grounds at Fordhook Farms that Burpee's flower seeds are occupying first place.

**Ageratum,

Bulbs for Winter and Spring Blooming

The so-called Dutch bulbs are so easily grown and the demand for them during winter and early spring is so tremendous that almost every florist, no matter how small his accommodations, is growing them. They usually bring a good price and repay well for the little trouble of growing. Our selection is not very large but it includes those which have proven best under all conditions.
